► **80 YEARS**  
OF THE INDUSTRY'S  
FINEST PRODUCTS.  
  
**AND COUNTING.**

► Mueller Industries' Streamline® brand of tube, fittings, valves and related products have set the Plumbing, HVAC and Refrigeration Industry's standard of excellence for over 80 years. Known for quality, precision fit and reliable performance, we're proud to be the preferred and specified brand of professionals all around the world.

# Streamline®

#### Streamline® Past and Future.

When Mueller Industries introduced the world's first solder-type copper fittings under the Streamline brand in 1930, the plumbing industry changed forever.

Those then-revolutionary Streamline copper solder-joined fittings were strong, precise and reliable, which helped establish all-copper plumbing systems as the industry standard.

Today, Streamline stands for 80 years of excellence in Plumbing, HVAC and Refrigeration flow-control products. Manufactured in the U.S.A. in our many modern, state-of-the-art facilities, Streamline copper tube, fittings and line sets; plastic pipe and fittings; brass flare fittings; refrigeration valves and protection devices are known and respected all over the world for consistency, precision fit and unfailing performance.

PREMIUM QUALITY TUBE & PIPE MANUFACTURED TO  
**THE ABSOLUTE HIGHEST STANDARDS.**

# TUBE & PIPE

► A global leader in premium-quality tube and pipe products since the early 1900's, Streamline® copper tube, line sets and ABS DWV pipe are manufactured in the USA to the absolute highest quality standards. From our pioneering of nitrogen charged ACR copper tube to the precision manufacturing of our ABS DWV pipe, our products reflect many industry first innovations and leading technologies. Each tube and pipe product line offers a full selection of choices to meet the needs of our customers' plumbing, air-conditioning, refrigeration, medical gas and other specialty applications.

- ABS DWV Pipe

**Streamline**®

# COPPER TUBE • PLUMBING

Streamline® Copper Tube sets the standard for quality, consistency and service in the plumbing industries. With a full line of copper tube products to support most all plumbing supply and DWV applications, Streamline® Copper Tube is available in all common types including Type K, Type L, Type M and DWV. Each piece of tube is incised marked and color coded for easy, long lasting identity. Manufactured in accordance with applicable standards, our ongoing commitment to quality continues to make Streamline® Copper Tube the preferred and specified brand of industry professionals.

- Made to applicable ASTM standards B88, B306, B819
- Meets NSF 61G
- Made in the USA

# COPPER TUBE • HVACR

Streamline® Copper Tube provides the strength, precision and cleanliness needed for the demanding conditions of HVAC and refrigeration applications. Preferred throughout the industry, our products have set the benchmark for HVACR copper tube. Streamline® Nitrogenized® ACR Copper Tube is pressurized with nitrogen to provide maximum protection against the formation of harmful oxides normally formed during brazing operations. Reduction of these oxides greatly reduces system contamination. Streamline® Refrigeration Service Tube is of a consistent dead soft temper, bright, thoroughly dried/dehydrated and packed in shrink wrapping plus individual cartons for the highest level of protection.

- Made to applicable ASTM standard B280
- Made in the USA

Temperature Control Tube is not recommended for forming or bending purposes.

Temperature Control Tube order quantities are in 2000 ft. per box increments.

Standard ACR Copper Tube is produced from Type L Copper Tube. Heavy Wall ACR Copper Tube produced from Type K Copper Tube is available upon request.

# COPPER TUBE • PLASTIC COATED

Streamline® Plastic-Coated Copper Tube is manufactured in a variety of options for use when copper tube is to be buried or used in a potentially aggressive environment. Some building and insulation materials may contain chemicals that are potentially corrosive to plain copper tube, requiring it to be protected to ensure its longevity in service. Our plastic-coated copper tube eliminates the need for on-site tape wrapping or sleeving, creating a savings on labor and ensuring a professional-looking installation. It can be used in a wide variety of situations including reclaimed water applications and the movement of natural gas.

\* Type K & L water tube only.

- For use in above-ground potable water supply systems
- Constructed of high-grade copper
- Made to applicable ASTM standards B88, B280
- Meets NSF 61G

**Polyethylene-Coated Copper Tube: PlumbShield®, GasShield®, OilShield®, Coated ACR**

**PlumbShield®** is available in blue and red for water applications and purple for reclaimed water. Certified to NSF 61.

**GasShield®** is available in yellow for natural and LP Gas applications.  
\*O.D. sizes only. Manufactured to meet the requirements of NFPA 54.

**OilShield®** is available in orange for fuel and oil applications.  
\*O.D. sizes only. Manufactured to meet the requirements of NFPA 31.

**Coated ACR** is available in white for HVAC & Refrigeration applications. Hard drawn tube lengths are nitrogen charged and plugged.

# COPPER TUBE • LEVEL WOUND

Streamline® Level Wound Copper Tube is a great solution for when large quantity coiled tubing is a benefit. Available in light annealed, soft annealed and hard temper, this tube comes in either bulk coil or spool rolled coil packaging. Bulk coils come independently stacked with cardboard disk separators and stretch wrapped onto a skid. Spool coil coils come stacked with hub mounted cardboard reels and also stretch wrapped onto a skid. Streamline® Level Wound Copper Tube is manufactured in various wall dimensions and diameters. Custom options and tempers can be quoted upon request.

MADE IN  
USA

- Seamless tube alloy made to C12200 DHP
- Copper material made to ASTM standard B743
- Custom O.D. wall and or tempers can be quoted as required
- Bulk packaging and spool packaging available

\* Level Wound Copper Tube is available in Light Annealed, Soft Annealed and Hard Temper.

### Bulk Packaging Information

Skids (43" X 43") | Coil ID = 26"  
Stacked in with cardboard disk as separators  
Plastic stretch wrapped on to a skid  
Coils per skid are dependent on coil width

### Spool Packaging Information

Skids (43" X 43")  
Spools Diameter 42" O.D. | Hub Hole 5.25" I.D.  
Stacked with cardboard reels and hubs mounted  
Plastic stretch wrapped on to a skid  
Coils per skid are dependent on coil width

### Temper

050 = Light Annealed  
060 = Soft Annealed  
H58 = Hard

# LINE SETS

Streamline® Line Sets have been an industry leader for decades. We leverage our many years of experience and expertise producing copper tube in every line set we make. From liquid line and suction line handling to unique insulation applications and packaging, every Streamline® Line Set meets our rigorous standards for quality and consistency. With a broad offering of liquid line and suction line diameters, insulation, thicknesses, custom ends and connections – plus a wide array of custom options, we're able to meet our customers most specialized and exacting needs.

- UL-recognized at 700 PSI MWP
- R410A engineered & tested
- Proprietary manufacturing process allows for kink-free installation
- Copper tube made to ASTM B280

#### Custom Options Include:

- Insulated liquid and suction lines for mini-split and twin tube systems
- Flare nuts, 90-degree bends, custom connections and assemblies
- Nitrogen and refrigerant charged lines
- Custom lengths
- Thermostat wire, mini-split wire or control cable, and taping

# ABS DWV PIPE

Streamline® ABS DWV Pipe has consistent and dense cellular structure, plus a uniform pipe wall thickness for uncompromising, reliable performance. Smooth, consistent interior walls provide for full flow and increased resistance to corrosion and scaling. Dense and uniform cellular (foam) structure results in a stronger, more reliable and quiet product while uniform interior and exterior wall skins improve joint strength and reliability. Our proprietary manufacturing technologies combined with our relentless attention to quality and detail means our customers will enjoy the best pipe in the industry.

- For use in non-pressurized drain, waste and vent sanitary systems
- Dense and uniform cellular (foam) structure results in a stronger, more reliable and quiet product
- Superior resistance to chemicals and corrosion
- Smooth, consistent interior walls provide for full flow and increased resistance to corrosion and scaling
- Uniform interior and exterior wall skins improve joint strength and reliability
- Made to ASTM standard F628
- Meets NSF 14

THE BEST FITTINGS IN THE JOINT.™

# COPPER FITTINGS

As originators of the solder-type copper fittings, our commitment to providing the highest quality fittings in the industry holds a special place. Today, our expansive line of Streamline® Copper Fittings are one of the industry's most complete offerings of fittings for copper piping systems from one source. Included are wrot and cast solder-joint pressure fittings, wrot and cast solder-joint DWV fittings and copper flare fittings. Our many years of engineering know-how and experience are reflected in the fine quality and workmanship of each copper fitting we manufacture.

- Copper Pressure Fittings
- Copper DWV Fittings
- Copper Flare Fittings

**Streamline®**

# COPPER SOLDER-JOINT PRESSURE FITTINGS

Streamline® Copper Solder-Joint Fittings for supply/pressurized systems have been the leading brand of copper fittings for over 80 years. Available in both wrot copper and cast bronze, our product selection has grown to become the most extensive in the industry. We are the acknowledged experts at engineering and manufacturing precision solder-joint copper fittings. Quality, consistency and reliability have made the Streamline® brand trusted and specified all around the world.

\*\* Applies to Wrot fittings only.

- For use in above-ground potable water supply systems
- Constructed of high-grade copper or bronze materials
- Made to applicable ASME standards B16.15, B16.18, B16.22, B16.24, B16.50, B1.20.1
- Wrot fittings meet NSF 61G

# COPPER SOLDER-JOINT DWV FITTINGS

Streamline® Copper Solder-Joint Fittings for DWV plumbing applications are available in both wrot copper and cast bronze materials. Designed for use in non-pressurized sanitary systems, these fittings commonly feature shorter solder cup designs and more sweeping turns. They are available in a wide range of diameters, styles and connections to meet most all sanitary system applications.

\*\* Applies to Wrot fittings only.

- For use in non-pressurized drain, waste and vent sanitary systems
- Constructed of high-grade copper or bronze materials
- Made to applicable ASME standards B16.23, B16.29
- Wrot fittings meet NSF 61G

# COPPER FLARE FITTINGS

Streamline® Copper Flare Fittings are for use with above-ground flexible copper tube in common potable water supply systems. These fittings make for easy and flame-free installations and require common tools for assembly. Available in five diameters from 1/2" to 2", these flare fittings come in an assortment of styles to meet common job needs.

- For use in above-ground potable water supply systems
- Constructed of high-grade copper or bronze materials
- Made to ASME standard B16.26
- Meets NSF 61G

MANUFACTURED TO EXACTING SPECIFICATIONS  
**FOR THE BEST FIT IN THE INDUSTRY.**

# PLASTIC FITTINGS

As a leader in high-quality PVC, ABS, Polypropylene and Styrene Fittings for over 20 years, Streamline® Plastic Fittings are designed and manufactured to the most exacting standards. With a fitting to meet most every common residential, commercial, industrial, irrigation and agricultural plumbing system application, our many lines of plastic fittings are simply the best in the industry. Each delivers excellent fit, smooth interior walls and outstanding corrosion and chemical resistance.

- PVC Schedule 40 Pressure Fittings
- Insert Fittings
- ABS DWV Fittings
- PVC DWV Fittings
- PVC Sewer Fittings
- Styrene Sewer Fittings

**Streamline®**

# PVC SCHEDULE 40 PRESSURE FITTINGS

Streamline® PVC Schedule 40 Pressure Fittings are renowned for superior strength and enhanced performance. With a full line of diameters and styles, our fittings are designed and tested under real world "cyclic" pressure conditions so they excel in extreme applications where lesser products often fail. Along with superior strength, our pressure plastic fittings offer smooth inner walls for low pressure drops and superior resistance to chemicals and corrosion.

- For use in cold-water pressure applications including potable water supply, irrigation and pool/spa
- Superior resistance to chemicals and corrosion
- Smooth inner walls provide for low pressure drops
- Made to applicable ASTM standards D2466, D1784, F1498
- Meets NSF 14 and 61G

# INSERT FITTINGS

Streamline® Insert Fittings are available in polypropylene. These fittings are designed to connect flexible polyethylene plastic tubing using either clamps or compression fittings. Because polyethylene plastic tubing comes in long coils, requires more support and is subject to kinking if bent too far, the ease of use and reliability of our insert fittings simplifies the installation of flexible plastic tubing and hosing systems.

- Use in the installation of flexible plastic tubing and hosing in cold-water applications including underground sprinkler systems
- Smooth walls prevent scaling and provide for free flow
- Compatible with polyethylene tubing
- Made to applicable ASTM standards D2609 & F1498
- Meets NSF 14 and 61G

# ABS DWV FITTINGS

Streamline® ABS DWV Fittings are manufactured to exact specifications to ensure the best fit in the industry. Each fitting delivers excellent rigidity and smooth interior walls to improve flow, inhibit scaling and provide superior resistance to chemicals and corrosion. Our stringent quality control protocols guarantee that our fittings fit and perform flawlessly, piece after piece. All fittings are packaged in standard industry carton quantities and dimensions, and utilize an intuitive, easily interpreted style numbering system.

MADE IN  
USA

- For use in non-pressurized drain, waste and vent sanitary systems
- Smooth, consistent interior walls provide for full flow and increased resistance to corrosion and scaling
- Superior resistance to chemicals and corrosion
- Uniform interior and exterior walls improve joint strength and reliability
- Made to applicable ASTM standards D2661, F1498, D3311, D3965
- Meets NSF 14

# PVC DWV FITTINGS

Streamline® PVC DWV Fittings are manufactured to exact specifications to ensure the best fit in the industry. Each fitting delivers excellent rigidity and smooth interior walls to improve flow, inhibit scaling and provide superior resistance to chemicals and corrosion. Our stringent quality control protocols guarantee that our fittings fit and perform flawlessly, piece after piece. All fittings are packaged in standard industry carton quantities and dimensions, and utilize an intuitive, easily interpreted style numbering system.

MADE IN  
USA

- For use in non-pressurized drain, waste and vent sanitary systems
- Smooth, consistent interior walls provide for full flow and increased resistance to corrosion and scaling
- Superior resistance to chemicals and corrosion

- Uniform interior and exterior
- Made to applicable ASTM D2665, F1498, D331, D1784
- Meets NSF 14

# PVC SEWER FITTINGS

Streamline® PVC Sewer Fittings are built and subjected to the similar rigorous testing and dimensioning that we use on our pressure and DWV fitting lines. Designed to withstand the conditions of burial, these fittings are extra strong, to resist crushing, and consistently sized for fast, precision assembly. Our manufacturing processes allow for absolute protection against leaks.

MADE IN  
USA

- Use in roof and ground drainage and sewer applications
- Built with virgin materials
- Extra strong to resist crushing
- Consistently sized for fast, precision assembly
- Corrosion and chemical resistant
- Smooth inner walls provide for free flow
- 4" fittings made to applicable ASTM standards D3034, D1784. All other sizes made to D2729, D1784

# STYRENE SEWER FITTINGS

Streamline® Styrene Sewer Fittings are manufactured with the extra steps necessary to deliver the strongest, most reliable sewer fittings available. Subjected to the similar rigorous testing and dimensioning that we use on our pressure and DWV fitting lines, our fittings are built extra strong for reliability and leak-proof performance above and underground.

MADE IN  
USA

- Use in roof and ground drainage and sewer applications
- Made with white impact virgin styrene
- High-strength material
- Smooth inner walls provide for free flow
- Suitable for use above and underground
- Corrosion and chemical resistant
- Made to ASTM D2852

**22-1/2° Elbow • 1/16 Bend**  
H x H

MADE IN  
USA

Item No.	Diameter	Each Wt.	Inner Qty.	Master Carton
03160	4"	0.3470	0	10
