

TOOLS & JAW COMPATIBILITY

We are proud to have partnered with Milwaukee® Tool in the development of proprietary jaws for use with our dual-seal Streamline® ACR Copper Press Fittings. These proprietary jaws are compatible with most common standard full-sized press tools on the market.

It is important to follow the specific manufacturers' guidelines for best use and practice and for required and periodic maintenance of both the tool and jaws used in copper press systems. Failure to do so may void the tool and jaw manufacturers' warranties and cause improper pressing of fittings.

For additional information regarding manufacturers' tools and/or jaw sets, refer to the individual websites of the specific manufacturer. Individual tool and jaw manufacturers' recommended maintenance and calibration schedules vary. Be sure to follow the instructions specific to the brand of tool and jaw set being used.

PART NUMBERS MILWAUKEE® STREAMLINE® ACR PRESS JAW									
	1/4"	3/8"	1/2"	5/8"	3/4"	7/8"	1-1/8"	1-3/8"	RING JAW
